2010-02-03

Dear Colleagues,

Welcome in 2010 and all the best!

Let's start we our ANSE !

Here are some important information concerning our ANSE business:

2011 Summer University Stavanger

Arild had sent a second draft (you can find it as attachment too). He cancelled some expensive things (f.e. lecturers from USA) and now it fits. Please have a look on it and give me your impressions.

Project EUROCADRES

I didn't hear from them for a long time. Calling the Eurocadres office in January I got the information, that the project will be postponed to autumn. End of February I had a phone call that they decide to make it with the old schedule. On March 5th is the first meeting of the steering committee in Brussels. I will be there. As far as I am informed they will run 4 to 5 conferences till summer and they have on mind the final conference at the beginning of autumn. Just remind on each conference someone of the ANSE has to be!! You will get all information after the Brussels meeting.

Brussels

Dieter Götschl did some fact-finding mission in Brussels for the DGSv as well as for the ANSE. You will have his report (in German) attached as well. He contacted Frank Schwalbe-Hoth, a former member of the Green Party in the EU. We can use him as a lobbyist and there is the suggestion of a conference/meeting in Brussels. You can read in the report (hopefully also Barbara ;-)). I didn't react earlier on that report because of our EUROCADRES project. We have to coordinate our activities concerning Brussels.

With best wishes

Wolfgang
