

EDUCATIONAL STANDARDS OF HDSOR
(Accepted by the General Assembly of HDSOR on November 2002)

A. Minimal standards for education as supervisor

1. Entry conditions for the supervisor education
 - university diploma in humanistic sciences (psychology, social work, pedagogy and the like) or similar areas (medicine, psychiatry, management and the like)
 - 5 years of professional experience
 - 100 hours of self-experiential work in workshops by any therapeutic school
 - at least 20 hours of experience as supervisee in a group and/or individual supervision

2. Supervision education:
 - 60 hours of delivering supervision (with supervision on supervision within the educational program)
 - 50 hours of supervision on supervision
 - 450 hours of education on supervision theory and method in a learning group
 - final paper and examination at the end

B. Exceptional Certification

Within a limited period, Croatians professionalists with long experience in professional work and well known for their work as supervisor, can achieve the status of supervisor. Therefore they must:

- write a report on their supervision work (presentation of a case from a supervision proces
- description of an example of his/her own supervisory way of working), making clear work of the group and of the supervisor and the method of observation used in the supervision process) on minimum 15 pages long tekst, including also a description of his/her own supervision concept, bases also on supervision literature)
- a conversation with a committee based on the paper previously mentioned about one's own concept of supervision
- the committee consists of two full members from HDSOR, and one member of behalf of ANSE.
