2. ANSE future Mission, results of the working groups:

a. ANSE Mission:

- ANSE needs to clear the roles and responsibilities of GA and PM. (The decisions are taken by the GA, but the ideas are coming from the presidents)
- We need to meet more often and more information between meetings.
- ANSE board needs information from national associations concerning their needs.
- Possible ideas:
 - To join GA and PM, but share the topics;
 - Longer meetings with longer pause between them.
 - Communication between the national associations and between ANSE board and national associations (with the contact persons, see topic 4). Short term goal is to make an ANSE virtual platform for exchange the information between the national associations, for example the discussion platform on LinkedIn only for ANSE members.
- Quality management: national associations need a board person, responsible for the quality management to collect information from NA and distribute it in a compendium.
- The contacts to associations outside ANSE (France, Portugal and Belgium) should be done also by the national associations.
- Support to smaller associations to become a full member.
- Contacts with coaching organizations – how to manage them?

b) Research:

- Many researches are going on in countries, but the language barriers are still blocking the exchange of the results. ANSE should promote the use of English in publication of research (at least abstracts).
- A platform for research will need technical support (website) and content management, linked to responsible agents within the national associations. Agents to be responsible for selecting relevant and qualitative research, for example: top 10 per year.
